Meningococcal

11th, 12th

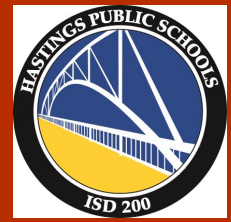

DTaP/DTx3

Td

Polio x 3

MMR x 2

Health Services

MAY / JUNE 2017

Is my child ready for school this fall?

IMMUNIZATIONS

Minnesota state law requires that the parent/guardian of all public and private school students provide their child's school with written evidence of immunization against certain diseases or provide notarized waiver. The law mandates that schools exclude students from school if they fail to meet the immunization requirement.

Hastings School District has a No Shots, No School Policy. This means that your child's immunizations need to be up to date before they start school.

7th grade students have additional immunizations required before the start of school (for most students this is the Tdap and Meningococcal shots). These students will be unable to pick up their schedule at orientation in August without proof of immunization compliance.

If your child will be in 7th grade this fall, please make sure your child's immunizations are up to date. Then send your child's updated immunization information to the nurse [via email](#) or mail (HMS Nurse RE: Immunizations, 1000 West 11th Street, Hastings, MN 55033) on or before August 16, 2017.

As a service to parents, the nurses are able to update some student immunizations using the state immunization database known as MIIC (Minnesota Immunization Information Connection). If you have opted with your clinic to have this information posted, the nurse will be able to access your child's immunization information online and update your child's immunizations. This updating is done only as time permits in the nurse's scheduled hours. The MIIC registry **ONLY** provides immunization information. **NO OTHER** health information is available or accessible.

If a parent chooses to not immunize their child, [the student immunization form](#) needs to be signed by the parent and notarized, stating the specific immunizations to which they object and given to the nurse at school.

Managing Health Concerns at School

If your child has a health concern that affects them during the school day, please share this with the nurse in your child's school.

New action plans with doctor's orders are required YEARLY.

Plans need to be signed by the health care provider AND parent. Permission forms and medications for your child can be brought to the nurse as early as August 21, 2017.

Hastings Middle School	<u>Judy Thue - RN</u>	(651) 480-7072
Hastings Middle School & Early Childhood Screening	<u>Trena Siebenaler - LPN</u>	(651) 480--7073
Kennedy Elementary	<u>DeeAnn Whitfield - RN</u>	(651) 480-7224
McAuliffe Elementary	<u>Paula Wenker - LPN</u>	(651) 480-7395
Pinecrest Elementary	<u>Kathy Swanson - RN</u>	(651) 480-7286
Health Services Coordinator Tilden Community Center	<u>Mary Ellen Fox - RN</u> Licensed School Nurse	(651) 480-7353

The nurses do not work regularly scheduled hours during the summer.
Their regular hours will begin on August 21, 2017.

Medications at School

Students who take medication at school will need to have updated medication forms for next school year. The forms are posted on the health services website:

http://www.hastings.k12.mn.us/Health_Services2.html
